### 1 Overview

1.1 The Consumer Focus strategic risk register is considered by the Audit and Risk Committee at each meeting of the Committee and is periodically brought before the Board. The current version of the register has been updated to reflect comments from the Audit and Risk Committee in March and the SMT in May. It has not yet, however, been updated in response to any BIS or Government announcements in the last few days. The register will be reviewed again by the Audit & Risk Committee on 1 June 2010.

### 2 Action for the Board

2.1 The Board is asked to **note** the Consumer Focus strategic risk register as at 24 May 2010.
